Business offer

BARWA SYSTEM Sp. z o.o. manufacturer of suspended metal ceilings

We have been existing on the market of finishing materials since 1994. We started our activity by cooperating with an Italian manufacturer in the field of import and assembly of metal suspended ceilings. Gained experience allow us to undertake innovative solutions and run our own production of metal ceilings in polish market. Our mission is to provide our clients with metal products of the highest quality.

We projecting and manufacturing raster ceilings, tray ceilings, panel ceilings, metal mesh ceilings and metal wall coverings and facades. Responding to growing needs of the market, we implement individual projects and we use variety of materials such as:

steel, aluminium
titanium-zinc sheets
cor-ten

composite
other alloys of colour metal

Thanks to adaptation production processes to European requirements and development of machine park and technological facilities we deliver safe products which meets expectations even most demanding customers.

Annually we deliver on European market more over 200 000 m2 of metal suspended ceilings, what makes us the largest manufacturer of metal ceilings in Poland
