Business offer

Manufacturer of products made of plywood (mostly). LED lamps for kids, interior design accessories.

We offer our manufacturing capabilities on industrial grade CO2 laser cutter.

We produce and deliver goods in retail to Germany, France, Belgium, Netherlands, Spain, Portugal, Slovakia and Czech Republic.

We work with a major home decor brand from Slovakia and supply our LED lamps for kids and plywood decorations in wholesale quantities, and to several smaller companies in Poland and Slovakia.

We handle difficult tasks and offer our support and expertise in designing attractive products.

We also use FDM and SLA printing for prototyping and delivering spare parts for cars and for repairing home appliances.
